FOR IMMEDIATE RELEASE

MICROSOLVED NOMINATED FOR INNOVATION AWARDS IN COLUMBUS *MSI's Powerful HoneyPoint Wasp Product Named In Outstanding Product Category*

COLUMBUS, Ohio October 27, 2011 -- MSI is proud to announce their nomination in the annual Innovation Awards, sponsored by TechColumbus, which recognizes outstanding achievements in technology leadership and innovation. HoneyPoint Wasp has been nominated for Outstanding Product for companies with 250 employees or less.

On Thursday, February 2, 2012 the annual TechColumbus Innovation Awards will showcase Central Ohio's many achievements by honoring its top innovators. It is a night of networking, prestige, and celebration. From a record number of nominees, winners in 13 award categories will be announced to an audience of 1,000+ attendees.

MicroSolved, Inc. is proud to be nominated in the Outstanding Product category. "It is an honor to be nominated for this award and to be recognized for our innovations. HoneyPoint Wasp has helped many organizations and we look forward to being surrounded by our peers, colleagues and mentors to learn if we will be named for Outstanding Product," commented Brent Huston, CEO and Security Evangelist.

Huston developed HoneyPoint Wasp in 2010, motivated by a desire to declare war on bots and malware. "Security teams need something they can realistically handle, without a bunch of extra work and an avalanche of false positive alerts. That's what Wasp is for." Huston concludes, "Wasp continually monitors each workstation, learning about its environment and checking for common signs of intrusion."

The TechColumbus Innovation Awards celebrate the spirit of innovation by recognizing outstanding technology achievements in Central Ohio. This prestigious evening showcases the region's advancements and promising future. For more information, [visit the TechColumbus Innovation Awards website](#).
